

Additive Manufacturing area

PRECISION FAIR

15 & 16 NOVEMBER 2023

DO YOU HAVE AN ADDITIVE MANUFACTURING SOLUTION READY TO BE USED IN THE FIELD OF ULTRA HIGH TECH? THEN THE AMFORPRECISION AREA DURING PRECISIONFAIR 2023 IS YOUR STAGE!

Precision technology forms the pillars of the Dutch knowledge and innovation economy. Meeting, collaborating, and sharing knowledge are indispensable to keep up with rapid technological advancements.

For 21 editions now, the Precision Fair has brought together the entire value chain to collaborate on the next generation of technological innovations. For you as an AM technology supplier it is THE opportunity to increase applicability awareness and showcase your technological AM innovation. This edition Mikrocentrum offers a dedicated area to extra highlight AM for Precision!

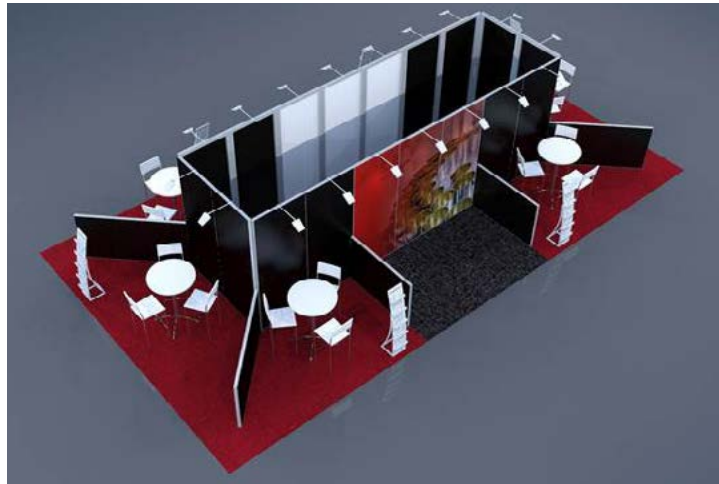

Do you have:

- A technology or service about AM that could be applied in this field?
- An appealing demopiece or case you could show?
- A convincing proof-of-principle project to feature in the lectures program?

Then read more.

A place on the AMforPrecision area includes the following:

- A stand of 6 or 9 square meters (see visual)
- Stand construction with personalizable back wall
(Note open structure: Own banners are not preferred)
- Spot on logo wall
- Electricity connection
- 1 bar table with 2 stools
- Common storage behind backwall
- Lunch/coffee/tea/fresh drinks for 2 persons
- 2 parking tickets
- Participation networking drinks, international Meet&Match, lectures program
- Opportunity to highlight news, blogs, videos, press releases and/or innovations through the event website and social media channels.
- Access to marketing toolkit with formats to easily create your own communications
- Company profile with contact details on the interactive floor plan
- Mention of participation in the exhibition floorplan and where possible with media partners
- Personal login link to invite contacts and relations

Cost:

- 6m² €2.603
- 9m² €3.719
- Companies that already exhibit can have an extra satellite place on the AMforPrecision area against the cost of the m² as if it was an enlargement of their already existing place.

All prices mentioned are excluding VAT and including € 495,- registration fee. (Registration fee non refundable at cancellation) Members of Mikrocentrum High Tech Platform receive a 10% discount. Mikrocentrum is monitoring the exhibitor profile in order to keep the focus on the field and to match the quality of the range of exhibitors with the expectations of the visitor.
